OILPORT BARREL TYPE PNEUMATIC PORTABLE OIL TRANSFER SET

It is designed for places where thin oil usage is intense. Different types are available upon request. Our standard produced model includes a barrel transport trolley, barrel type air thin oil pump, 5 meter oil hose, Yağver 58 Electronic Metered Triggered Oil Gun. It is used for lubrication of auto maintenance services, vehicles and work machines such as buses and trucks. Thanks to its wheels and portability, you can use it to reach the oil at the bottom of the barrel without the need to transfer oil from the barrel to smaller containers. It provides clean oil transfer thanks to the filter at the end of the oil pump's suction pipe.

Working Pressure:	6-8 Bar
Compression Ratio:	1/4
Yield:	7 L/Min
Capacity:	Plugged Metal Drum (Standard Type)
Hose Length:	5 m.
Hose Type:	3/8 R1
Weight:	45 Kg.
Packaged Weight:	47 Kg.
Packaging Dimension (LxWxD):	1050x700x700xmm

Product No TDR2000001387
