BIGBOY HIGH EFFICIENCY FUEL PUMP

Developed with Mites' more than 45 years of experience in the sector and MLB Group's superior technology and engineering know-how, High Efficiency BIGBOY is specially produced for giant trucks and construction equipment to complete fuel supply more quickly in high-volume areas such as mines or construction sites. Thanks to its RS 485 output, it can work compatible with fuel automation systems. It is not suitable for fuel trade. “IT CANNOT BE USED IN BUYING AND SELLING”. Please call for different efficiency and equipment options.

Counter:	MTS-20 EN Fuel Meter with Electronic Numbering
Engine:	380 V AC Ex-Proof
Pump:	MPP 500 EX Vane Fuel Pump
Output:	2" x 3pcs
Coin and Liter Preset:	YES
Adaptation to Automation:	YES
Dimension (LxWxD)	1500x700x700mm

Product No MTS1000000007
