DEFTRANSET 400 AC ADBLUE TRANSFER PUMP

It is a pump specially produced for Adblue. Thanks to its stainless components, it is a suitable product for AdBlue transfer. Deftranset 400 AC Adblue Transfer Pump is coupled with a 220 Volt, 50 Hz electric motor. It allows the transfer of up to 400 liters of AdBlue per minute. It is an extremely useful product due to its easy use, easy installation and long life.

Entry-Exit:	2"
Maximum Capacity:	400 Lt/Min.
Engine:	230/50 Hz, 400/50 Hz Motor Hz, 1 Kw, Thermal Protection
Maximum Ambient Temperature:	40 C
Pump System:	AISI 316, Mechanical Seal
Filter:	No, it is recommended to install an Adblue Filter at the Pump Inlet
By-Pass System:	None
Weight:	14.5 Kg.
Dimension (LxWxD):	260x250x380

Product No TDR2000001509
