TRANSET 100 AC DIESEL TRANSFER PUMP

It was designed to meet the diesel needs of amateurs and semi-professionals. 220 Volt 1000 watt coupled motor, with its 1" input and output, allows use in many areas such as industrial, logistics, agriculture, mining, construction and auto services. CE certified TRANSET 100 AC Diesel Transfer Pump, 100 Liters per minute It is a high-performance product with its efficiency. It has a plug-and-play feature thanks to its coupled filter and on-off switch. The fuel output can be controlled by a meter attached to its outlet. For the meter, you can review the following pages of our products; /strong> or ODM 48 Mechanical Diesel and Mineral Oil Meter.

Entry-Exit:	1"
Capacity:	100 Lt/Min.
Engine:	230/50 Hz, 1000 Watt, 2850 Dv/Min., Thermal Protection
Maximum Suction:	2.5 meters from the ground, 5 meters from the horizontal with 1" installation
Pump System:	Crawler
Filter:	Cleanable 350 micron steel wire filter coupled to the pump
By-Pass System:	Yes
Weight:	10.5 Kg.
Dimension (LxWxD):	200X360X160

Product No TDR2000000271
