## TRANSET 538 MNEX FUEL TRANSFER SET-EX-PROOF

It is used to transfer fuel to another region with high flow rate. Our product includes MID certified MTS 20 MN mechanical numerator fuel meter, $500 \mathrm{lt} / \mathrm{min}$ fuel pump, ex-proof or standard electric motor upon request, ex-proof electrical panel and switch for ex-proof motor types, ATEX certified 10-meter grounding for static electricity. It has a reel and a special fuel filter. It is mounted on a fixed chassis in standard production, but it can also be mounted on a portable wheeled chassis upon request. The fuel pump to be used may be a crawler, star gear or sergeant gear type, depending on the area of use and the specific situation of the project. The mechanical counter is produced for use in industrial environments and provides $0.5 \%$ accuracy under suitable conditions.
